

26 Ga Stainless Rigid Liner & Fittings

Stainless Steel (Type 304) .018" Thickness

"Dalsin Line"® 26 gauge rigid liner and fittings are intended for gas, pellet and oil applications. This liner is widely used in HVAC applications as an upgrade from standard aluminum or galvanized venting.

Features

UL listed to 1777

Liner products are made completely of Type 304 26 gauge stainless steel.

All Liner & Fittings feature continuous seam weld for superior strength.

Limited lifetime warranty - must have a rain cap and be swept annually by a certified sweep.

Ordering

When measuring total run remember there is a 2" overlap at each section.

Larger sizes available, please call for price quote.
